The novel opens with Aunt Polly searching the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, “Look behind you!” and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects ruefully on Tom’s naughtiness and how she lets him get away with too much.

Tom comes home at supper and is told that he must be skipped school that afternoon and must remain inside. Tom is furious, but Aunt Polly insists. Tom is upset but obedient. He goes down to the river and kicks sand about for a while before going back home. When Tom arrives home, Aunt Polly is satisfied, and Tom sits down to eat his supper, which is uneventful.

Tom is an adventurous young boy, and he knows his way around the river. Tom and his friend Joe find a stray dog and decide to take it to their friend Mark. Tom has sworn the dog to himself in disguise before going out.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Tom passes by, and Tom tries to get him to do some of the whitewashing in return for a “white alley,” a kind of内科. Tom almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his tasks.
The novel opens with Aunt Polly scouring the house in search of her nephew, Tom Sawyer. She finds him in the closet, discovers that his hands are covered with jam, and prepares to give him a whipping. Tom cries out theatrically, “Look behind you!” and when Aunt Polly turns, Tom escapes over the fence. After Tom is gone, Aunt Polly reflects worriedly on Tom’s mischief and how she lets him get away with too much.

Tom comes home at suppertime. He wears a new, clean suit, and Aunt Polly is satisfied. Tom has been skipped school that afternoon and went to see a man who showed him how to make pickles. He plans to make Aunt Polly a batch tomorrow and earn some money. Tom has sworn the child himself to disguise his actions and eventually claims the newcomers at the well不做坏事.

When he returns home in the evening, Tom finds Aunt Polly waiting for him. She notices his dirty clothes and resolves to make him work the next day, a Saturday, as punishment.

On Saturday morning, Aunt Polly sends Tom out to whitewash the fence. Jim passes by, and Tom tries to get him to do some of the whitewashing in return for a “white alley,” a kind of snub; Tom almost agrees, but Aunt Polly appears and chases him off, leaving Tom alone with his tasks.

GEO BON is continuously building up its network. GEO BON has more than 400 individual members from 45 different countries, including scientists, managers and practitioners active in biodiversity observation.

The National Biodiversity Network (NBN) is a collaborative venture in the United Kingdom, which is committed to making biodiversity information available through the internet via the NBN Atlas - the data search website of the NBN.

The Global Soil Biodiversity Initiative was launched in September 2011 and is open to all those interested in developing a coherent platform for promoting the translation of expert knowledge on soil biodiversity into environmental policy and sustainable land management for the protection and enhancement of ecosystem services.

The National Ecological Observatory Network (NEON) provides open access ecological data, archival samples and educational resources to better understand how ecosystems in the U.S. are changing. Scientific infrastructure is also available for additional research studies.

Our Plans. iBOL will establish an earth observation system that will reveal species, including their dynamics and interactions. Tracking ecosystems and revealing symbiomes – distinct fungal, plant, and animal species associated with host organisms – before the middle of this century by completing three research programs:

BARCODE 500K

iBOL - Illuminate Biodiversity - International Barcode of Life

PEI is committed to inclusivity and to modeling inclusive practices in our work. This includes actively expanding the diversity of our staff and board and inviting others to participate with us as we work to build a more equitable landscape for learning so that all of Washington’s students see themselves as part of the solution to building sustainable communities.

Our Work | Pacific Education Institute

It focuses on the dynamic human-plant interrelations and impacts, the role of plants in the formation and maintenance of the existential basis, social relations, cultural values and symbols, and vice versa the role of man, their cultural and economic orientations and transformation practices in the plant world. The idea for this conference grew out of the research work of a team from the...

Institute of Biodiversity and Ecosystem Research at the...

The focus of the Chair will be to expand/refine the existing observatory protocol and research activities to develop a pragmatic, theoretical, and operational social-ecological framework that integrates multi-scale ecological, social observations and other sources of knowledge, and engages...
